# DIANA RICE - VICE PRESIDENT

I joined the club in 1982 and so far have managed to bluff my way through into 3rd year Agricultural Science. I'm mainly interested in bushwalking and rogaining but hope to also do a lot more skiing this winter, snow permitting.

When I'm not being masochistic in the never-never I love sleeping, drinking brandy & drys and listening to the 7:00 mews. Dry socks aren't bad either.

# ROBERT TAYLOR - TREASURER del acia onal ystatevastal

I first joined the club in 1982, but did not become active until 1983. Since then my main interest has been kayaking. However I hope this year that snow conditions allow more ski-touring, which I began last year of a combined canoe/ski trip. I have also done a limited amount of bushwalking. At the moment I am studying fourth year law/commerce.

(Rob Taylor replaces Dave McFarland as treasurer who due to other committments was umable to continue with the position. Many thanks to Dave for his work in getting things going and we hope to see you around the club in the future.)

# JENNY SALEEBA - LIBRARIAN.

I joined MUMC three years ago when I arrived at Uni as a science student. I first gave bushwalking a go but, after one four day uphill march and one shorter walk on which we got lost. I decided there had to be a better way to see the bush. Last year I took up canoeing expecting still waters in a serene setting, but found white water has a certain magnetism. I also played a season of canoe polo and learnt the art of the eskimo role. The highpoint of my canoeing year had to be the end of the year "Snowy River Bludge Epic". At a 1008 and days and days and days are setting.

This year I hope to add a variety of books to the club library and improve its security. Any suggestions for new titles would be appreciated.

# JAMES MCINTOSH - CLIMBING CONVENOR

I am a third year Engineering student and have been an active MUMC member since 1982. I took up climbing in that year with the club, and now climb middle grades. All of my climbing has been in Victoria, usually at Mt Arapiles. Much of my time is also spent bushwalking (mostly in Tasmania) and ski-touring in the higher parts of the Victorian Alps. I am also a member of the Victorian Climbing Club, the Mt Bogong Club, the Melting Moments Bushwalking Club and the Victorian Rogaining Association.

# Service March 24 HOUR WALK REPORT

6.

by Paul Sharp (organiser)

The 38th annual MUMC 24 hour walk set in the beautiful rugged terrain of the Boola Boola State Forest will be remembered as one of the most challenging rogains ever. After announcing the final results I asked the winning team of Michael Walters and Neil Hooper to say a few words. All Mike could sigh was "It was a tough course."

The Course consisted of three loops out from the central Hash House and tent site in the Boola Camp clearing. The length of the course was 88 km (assuming optimum route choice) for a maximum of 240 points. The winning team scored 168 points, completing leg 1 in less than 5 hours and then leg 2 in less than 15 hours. (They stopped at 8.35am. Badord bled od lilw dolasarenil solitaria A .esu ogor bas

Parts of the course had thick scrub or steep slopes or involved walking along rocky creeks. This difficult terrain was balanced with more open forest and tracks, especially for the night leg. There was no farmland. Features of the course were the abundant lyrebirds and that almost half the checpoints were beside waterfalls, flowing creeks or dams. Some checkpoints involved tricky navigation, but none were Please let me know by the end of September if you will be .besiquem

The Map. Over such a large area of forest we did not try to map all the new tracks, but aimed to correct the map location of those tracks already on the map, and to include any new tracks relevant to the expected route of the walkers. Rogaining maps are never perfect and it is part of the sport to be able to allow for the limitations of a particular map in navigations between checkpoints. For example the map gave no indication of whether tracks were wellmaintained or partially overgrown. But major ridge roads could be identified and connect up all the minor, dead end spur tracks. A DELI

A portable hash house was set up to boost the morale of teams walking through the night. Initially located in the latter half of leg 1, it was shifted at 11:00pm to half way around leg 2.

empetent snow shoer - fully equipped

As the champagne cork blew off to start the event at 1:04 pm. the clouds burst, breaking almost 2 months of fine weather. This day one rain dampened morale and ruined views, in particular the golden sunset sinking into the rippling Moondarra reservoir (leg 1)

After the sunset was two hours of pitchblack darkness before moonrise. Then for the next five hours the moonlight was useless,

To 1 sen 111 rebled Jake

all agreed that it was correctly mented. bidden behind the eastern clouds. But for those teams brave enough to stay out walking after midnight, the skies cleared and the id forest was lit up by full moon and starry sky. Sunday morning was bright and sunny. it was a cliff - typist) She was ac

This was an unfortunate cycle of weather because beginners are very sensitive to first impressions. At about sunset 10 - 15 teams arrived at the site of the leg 1 portable hash house which was being set up. They complained about the weather, the rugged terrain and the dark.

Some people suggested that the high value second and third checkpoints were too challenging for beginners to cope with. I agree that the first few chckpoints should have been setalike at checkpoint 1, ie.not far apart, very easy to find, and of low points value, but with terrain typical for the course, as an indication to the more experienced teams of what to expect later. But otherwise, the teams that gave up so easily have only their bad navigation and lack of perseverence to blame. Mountaineers should be prepared to face the elements. opposite directions. After visiting

The longer that teams stayed out, and as the weather improved, the more they enjoyed themselves and complemented the course-setting and organisation. The portable hash house far away on leg 2 was greatly appreciated by the 20 odd teams that made it. Most of them passed through for a well-deserved boost in the wee hours of Sunday morning. Back at the main hash house weary walkers were huddled around a big fire, filling up with seconds of the latest hash-house delicacy. From an organisational point of view, the even

all agreed that it was correctly marked.

# <u>Disqualifications</u>

One girl slipped on a hill-side dislocating her knee. (She told me it was a cliff!-typist) She was accompanied to a vehicle by a team member, for transporting back to the hash house. The rest of the team continued on leg 1 and were not disqualified because the team had acted safely.

Team XII walked off the map at checkpoint 7, slept overnight at a farm house and were driven back to the hash house on Sunday morning. They were disqualified for not travelling on foot.

Unfortunately 4 teams did not report to the admin desk between legs 2 & 3, so they lost points for whichever leg had the least score.(m41,M48,M64,X75)

Only 4 teams lost penalty points for returning late - the last reaching the admin desk at 1:05pm. EXCEPT for team M65. This team was out on leg 2 running late. One team member had a bad knee, the other had blisters. They split up against the rules and went alone in opposite directions. After visiting two checkpoints alone, one member returned to the hash house after 3:00pm. We went searching for the other by car and on foot. Meanwhile he had hitched a ride with a passing motorist back to the hashhouse. The organiser took great pleasure in disqualifying this naughty team for breaking every rule in the book. (According to their late time, M65 scored minus 200 or 300 points. Maybe this would have been better than a disqualified zero score!)

From an organisational point of view, the event ran smoothly although hectic at times. Most of the hash house and admin staff got little sleep and worked hard. The crew running the portable hash houses got no sleep at all. The catering budget was \$4 per head for food ingredients, and all comments about the food were favorable. The only problem was that the portable hash house for leg 1 was set up about three-quarters of an hour later than the first team needed it.

Being organiser is a very rewarding experience. I'd do it again. But seeing I won't be around next year - how about YOU

# THE WINNERS

Michael Walters and Neil Hooper achieved the highest score in this year's 24 hour walk. They are amongst the best orienteers in the country. Neil has won the 4 peaks run, the Mount Beauty Marathon and numerous important orienteering events. Michael came 2nd after 3 days orienteering in Tasmania at Easter. He has also won the mixed section of a number of rogains with Rebecca Ford.

Neil runs 70 - 100 miles a week in training. Michael was doing 100 miles a week at Christmas but is currently doing 30 - 50.

Michael says that food on the 24 hour walk was superb, the hash house site ideal and the course tough but enjoyable. Control placement was accurate and the course setters provided plenty of opportunity for track walking at night. Michael wore an orien -teering suit and runners during the day and a woollen jumper, japara, gloves and beanie as extras at night.

They ran from 1:00pm until 12:30 am (wherever possible), at 12:30 they began the scrub bash from control 21 to 22 taking 1 and 3/4 hours. Whereas Deryek Morris, Kathy Watt and Alan Davis went via tracks taking 35 minutes.

Michael and Neil completed loop 2 at 8:30am with time to do most of the checkpoints on loop 3 but decided to retire as they knew they had amassed an unbeatable tally.

Michael prefers rogains held exclusively on forest areas because they are more challenging. (He is a 4th year forestry student.) His ambitions are to win the Australian Rogaining Championships and be a member of the Australian Team in the World Orienteering Championships being held in Victoria in 1985.

# JUST WHEN YOU THOUGHT IT WAS SAFE TO GO BACK IN THE WATER:

We paddled unempthed.

There were plenty of rapids,

Was performed by Chris Ryan,

Obstatles were numerous,

There had been no rain,
The Snowy River was down,
Was the Easter trip off?
Would noone drown?

A decision was made, That if all else fails, We'll do the Murrumbidgee, In New South Wales.

Throughout the night,
The rain came down,
The rivers rose,
But Tim just frowned.

The Cotter was flowing very fast.

Many saw their lives flash past.

For some this was their first white water

This wasn't sport, this was slaughter.

Friday afternoom, after some sleep,
We got on the river, with our huge fleet.
There were many large rapids, and big pressure waves,
A handfull of swimmers had to be saved.
But all agreed, this was great fun,
And the Easter epic had just begun.

With some trepidation,

We tackled the 'Bidgee

And pulses hastened.

The river was high,

And the rapids were frequent.

It looked pretty hard,

But we kept this a secret.

And the rapids were frequent.

.tears willes trip erns owcontinued. ....

Through the early stages,
We paddled unscathed.
Although one or two
Decided to bathe.

There were plenty of rapids, With many grade threes.
Obstacles were numerous,
Both rocks and trees.

The first major incident
Was performed by Chris Ryan,
Who wrapped his boat 'round a tree,
Without even trying.

He had paid his money,
And taken his chances,
But I wish he would stay,
Away from those branches.

Next morning we decided to try something easy,
As some of our group were still feeling queasy.
The water was fun, and the weather was fine.
All this made for a very pleasant time.

We packed up our gear,
And began to make tracks.

'Cause we were paddling the Snowy,
On the way back.

Tuesdays trip was just a quicky,

We didn't think there was anything tricky.

But after one hour, we had to stop,

Because in front of us, was a ten foot drop.

After two failed attempts on a C2,

It was decided that this was not a rapid to do.

I gave the trip nine out of ten,
I hope we do it some time again.
And I would like to thank all those who came,
Who helped make this trip really great.

A decision was made.

# The Epic Murrimbidgee-Cotter-Snowy Rivers-Buchan pub Trip.

There was movement at the clubrooms For the word had passed around a same of That the Murrumbidgee's rising And the Snowy's going down. The state one So we set off in our convoy and as ent On that road so rough and wet and Noor And half way up to Canberra ode and and Met the chaps at Space cadet. Jew ew bull (libles aw one It was 8:00 on Friday morning a classed And the rain was pelting down it is aim So we slept our way through breakfast And then we hit the town (Canberra) The sun came out at lunchtime, sign ent The day was getting hotter ??? ovol 100 So we struggled into wetsuits avail and ".aso And paddled down the Cotter of sy dia act Uncle Timmy gave the order "We'll paddle from Cambah pools It'l only take three hours". And we trusted him like fools From Nudist beach to Nudist beach Every rapid there had thrown us Ian gleefully rubbed his hands, Saying "Any pain's a bonus." The evening bought us great relief BULD SHI TA Mulie's massage did sooth our aches O DMSET OLO (not with oils of the forbidden fruit) It was great to sit around the fire COST: DONATION To drink port and eat pancakes. All the wimps they went on strike A hard trip we could not take So we struck the Murrumbidgee With an astro big lunchbreak. The heros challenged the Cotter To the crowd's almighty roar Breaking all the records And Timmy broke his oar (oops!!!Paddle) Jelly bean donned Ann's bathers With all of a starlett's grace

The Cameras all a clicking - seebid minute of soft To capture his red ffface. The mob was herded to the Snowy so sand To make a fire a blazer and brow and got To celebrate George's birthday and Jant And attack Timmy with a razor and but The 28 gun paddlers are all the deal of od Took the snowy in their stride 1 and no The slug shot down the Cistern lad bak And we watched them all with pride. (but boy George's drive was short and sweet (?) were we cold!!) His car the mountain struck area and bank So to the sounds of Rolling Sones We waited for a towing truck ow nedd bal The Epic trip to an end came med and Our love of terr firmer enhanced was off This leaves but ourselves to blame was "Cos if ya pays ya money ya take ya chances."

There were three trophies to be won: Polo; Slalom; Down River Race. Melbourne won the polo and Down River Race trophies.

The event was held over five days anido e ai reducto-

Day 1. Canoe Polo at Deakin Pool A.C.T. ob garage still-. . Wine and Cheese nighting asomila dilw qot add tu-

Day 2. Practise and Novelty events

Day 3. Slalom / Individual events

Day 4. Slalom / Teams events boot garyars bas qu bequi--atalactites and stalecuites.

Day 5. Down River Race

Presentation (Party)

The Slalom course was a series of twenty gates suspended over a small rapid over a section about 100m in length. The competitor had to go through each gate, either forwards, backwards or upstream. Penalties were incurred for touching a gate pole, going through the gate the wrong way, or missing it, and were added to the total time taken to complete the course. Agility and speed made the best combination. In the slalom teams consisting of three members, the whole team had to shoot through a gate within 15 seconos or else penalties were incurred.

The Down River race was a speed race down river lasting twenty to forty minutes.

Each event had a variety of classes; Open Single Kayak(OK1),

Ladies Single Kayak(LK1), Open Single Canadian(OC1), Open double Canadian(OC2) and mixed double canadian(MC2).

Sydney Uni were a good host providing lots of food and drink. and were very friendly. In fact the atmosphere throughout the event was very amiable, the moon was full and the weather was glorious.

Section Placing

Ian Mackenzie and Tim Berriman, who probably want an honorable mention, turned up on the second last night, woke us up, and confused all strangers on the party night who didn't quite know how to take them (they go down best with a Foster's.)

Thanks to Peter Freeman for organiaing us all.
